

# Featherweight® Linen and Supply Carts

Innovation Designed Around You

**PHS  
WEST  
INC.**

“PHS West, Inc. clients choose us because of our focus on designing custom pieces that match their specific needs. Along with an ever-expanding product line, we enhance our products with world class customer service and technical support.”

-Abie Rosckes, *Marketing Manager*

## A Safer Way to Move

Increase your efficiency and employee morale by allowing just one staff member to complete the job safely.

## Featherweight® Linen and Supply Carts

Our Featherweight® line of linen and supply carts is lightweight, durable, and provides a wide variety of design options allowing us to meet your individual needs. This includes spatial limitations, shelving configurations, closure methods, and budget.

### Benefits

Increase staff efficiency with the ability to transport larger loads in fewer trips and reduce potential staff injuries. Transporting your linen and supply carts long distances? Is the weight of the carts a concern for staff safety? Our linen and supply carts can be combined with an Ergo-Express® power drive system.

### Customizable Options

The primary focus in every Featherweight® Linen and Supply Cart from PHS West, Inc. is maximizing available storage space and organization while providing a secure and user friendly barrier for the clean linen. Enclosed, semi-enclosed, and open linen and supply carts are all perfect solutions to your transportation needs.

## Featherweight® Linen and Supply Cart

### Features

Featherweight® Linen and Supply Carts are perfect for handling whatever size load you require. Anodized aluminum alloy creates a lightweight unit | easy to push, yet strong!

- Non-marking, full perimeter rubber bumper
- Non-marking, precision ball bearing caster wheels
  - Full swivel
  - Fixed
  - Directional lock
  - Total lock
- All caster wheels are low maintenance and easy rolling
- Plastic storage totes with optional dividers; easy in and out sliders ensure they never bind
- Shelving options
  - Slide out
  - Solid
  - Wire
  - Fixed
- Optional vinyl covers and solid doors
- Custom cart designs available in fully enclosed, semi-enclosed, and open
- Two point positive-latching door mechanism with easy grip-and-turn latch ensures doors remain closed during transport
- Finger activated door latch ensures doors stay open in cart washers
- Optional Ergo-Express® Power Drive Options
  - Motorized Platform Cart
  - Motorized Tug | connecting hitches to pull a train of carts.

## Featherweight® Linen and Supply Cart Options

### Open Cart

Featherweight® Open Linen and Supply Carts maximize the space available for storage and organization of your supplies.

### Semi-Enclosed Cart

The semi-enclosed option offers three sides with a vinyl front flap.

### Fully Enclosed Cart

A fully enclosed cart mirrors the semi-enclosed option with latching doors, instead of vinyl.

\*Other cart color options are available upon request.
