

Ergo-Express® Motorized Ceiling Lift Load Test Cart Options

Innovation Designed Around You

**PHS
WEST
INC.**

"We take ergonomics seriously at PHS West, Inc. With 20 years in business, we understand the importance of staff safety. PHS West, Inc. develops products that eliminate the possibility of push or pull injuries and take pride in our expertise."

-Scott Cummings, Vice President of Operations

Safe Transportation Solutions

With a motorized solution, just one staff member is able to complete the task at hand with no risk of a push or pull injury.

Ergo-Express® Motorized Ceiling Lift Load Test Carts

The Ergo-Express® Motorized Ceiling Lift Load Test Carts by PHS West, Inc. offer a variety of load testing options. From a multi-selection weight kit to a single weight options, to a retrofit application, the Ergo-Express® Motorized Ceiling Lift Load Test Carts fit any requirements your facility may have.

Benefits

- Immediate return on investment
 - One staff member does what previously took two to three
- Elimination of workman's compensation claims
 - Zero push or pull force required for long distance transfer
- Increased employee morale
 - Staff won't go home tired and sore

Weight Kits

Multi-Selection Weight Kit: With a weight range of 200LB to 1,600LB, this application is PHS West, Inc.'s first choice when providing a suitable ceiling lift load test cart for your application. In 10LB selectable increments, our multi-selection weight kit allows you to adjust your load test weight as necessary quickly and efficiently.

Removable Chrome Weight Plates: Our simplest offering when it comes to weight kit, allow us to outfit a Ergo-Express® Motorized Cart with 25 pound weight plates up to the weight that best suits your application.

Retrofit Weight Kit: Already have the weights necessary to perform your load testing? No problem. PHS West, Inc. offers a retrofitting option attaching your weights to an Ergo-Express® Motorized Cart.

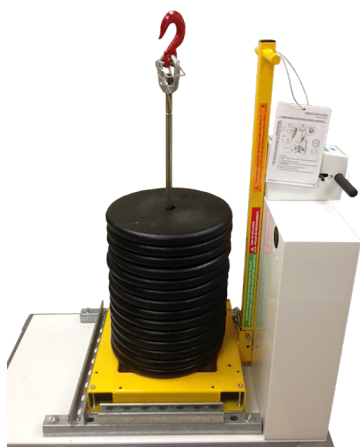

Ergo-Express® Motorized Ceiling Lift Load Test Cart *Multi-Selection Weight Kit*

The Ergo-Express® Motorized Ceiling Lift Load Test Cart offers an immediate return on investment allowing one staff member to perform a task that previously took two to three. With the option of testing different weights all on one cart, you eliminate the need for multiple staff to complete one test. Increase employee morale simply because staff will no longer return home tired and sore.

Ergo-Express® Motorized Ceiling Lift Load Test Cart *With Removable Chrome Weight Plates*

The Ergo-Express® Motorized Ceiling Lift Load Test Cart with Removable Chrome Weight Plates allows one person to perform all load testing in an efficient manner. Easily select your weight in 25 pound increments by adding or removing plates.

Ergo-Express® Motorized Ceiling Lift Load Test Cart *Retrofit Weight Kit*

Retrofitting options are available with the Ergo-Express® Motorized Ceiling Lift Load Test Cart. Allow us to create the motorized transport cart that will house your weights used for load testing.
