Safe Transportation Solutions

With a motorized solution, just one staff member is able to complete the task at hand with no risk of a push or pull injury.

Ergo-Express[®] Motorized Dialysis Cart

Transportation of acute bedside dialysis equipment is made easier by implementing the Ergo-Express[®] Motorized Dialysis Cart. Eliminate push and pull injury potential while allowing one person to safely transport all necessary equipment and supplies in just one trip.

Customizable Options

Because no two dialysis departments’ portable setups are the same, we build your transport system to meet your specific needs and applications. The Ergo-Express[®] Motorized Dialysis Cart is modular in design, lending transport compatibility with current or past manufacturer’s hemodialysis machines, portable R.O.s, and carbon filtration systems. PHS West, Inc. consistently maintains a current offering of compatible solutions for all manufacturers’ equipment.

Benefits

PHS West, Inc. allows you and your department to safely transport your entire dialysis equipment system to the patient in any acute hospital setting. With our Ergo-Express[®] Motorized Dialysis Carts, any person, regardless of work restriction or physical ability, can transport all necessary equipment in just one trip.

Ergo-Express® Motorized Dialysis Cart

Compatible Equipment

Ergo-Express® Motorized Dialysis Carts are modular in design allowing for compatibility with listed manufacturers of hemodialysis machines, portable R.O.s, and carbon filtration systems. Compatible equipment listed includes but is not limited to the capabilities of the Ergo-Express® Motorized Dialysis Carts. If your current or future equipment is not listed, please contact us.

- Fresenius
 - H,K,T
- Gambro Phoenix
- B. Braun
 - Dialog, Dialog+

Portable RO

- Mar Cor
 - Millenium, WRO, Millenium HX, WRO 300H
- Better Water
 - PB, PB2

Peer Reviews

"Ergo-Express® Motorized Dialysis Carts are one of the best investments I have been able to make for my staff since beginning my management position. No one complains like they had before about having to do a travel case."

-Hemodialysis Nurse Manager

"Our portable cases were becoming so frequent, we had to start pulling nurses from our chronic area to help move equipment to our ICU. Now one person can safely transport, in one trip, everything that used to take two people multiple trips."

-Nursing Administrator

Carbon Filtration

- Carbon Tanks
 - Any quantity, size, or diameter
- Carbon Blocks
- Pre-Filter Housings
 - Any quantity, size, or diameter
- Ameriwater
 - MRO, MROS
- Aquaboss

Three Reasons to Go Motorized

with PHS West, Inc.

1

SAFETY | Eliminating push or pull force injuries

2

EFFICIENCY | Doing more with less.

3

EMPLOYEE SATISFACTION | Boost employee morale and productivity
