

## DATA CENTER

# Lifter

Reduce the risk of an injury associated with lifting and positioning heavy server equipment.

### Our Mission

PHS West is a relationship focused organization providing innovative products for a safe and efficient workplace.

*At PHS West, we take pride in developing products that work towards eliminating the possibility of staff injuries. More than anything, we strive to help you achieve a safer and more productive workplace.*

**Don DeMorett**  
PRESIDENT

## Data Center Lifter

Implementing a Data Center Lifter is the safe and efficient solution to performing essential data center maintenance tasks. Lift, position and transport heavy server equipment throughout your facility while eliminating the injury risk to your team. Allow any one staff member to install or remove servers from a rack with ease.

### BENEFITS

Data Center Lifters are lightweight and mobile for easy positioning in narrow spaces. This is all backed by our signature 24/7 customer support to ensure you receive optimal customer service throughout the life of the product.

# Data Center Lifter

## FEATURES

These standard features set our Data Center Lifters apart from all others.

### FEATURES

#### Lightweight Construction

Apply minimal force to transport without compromising durability.

### FEATURES

#### Lowest Platform Height

Lower the platform to less than 4" to reach even the bottom server rack.

### FEATURES

#### Detachable Power Pack

Our hot-swappable batteries accommodate any duty cycle.

### FEATURES

#### Central Brake System

Set the brake, directional lock, or free wheel at the press of a foot.

## ADDITIONAL FEATURES AND CUSTOMIZATION OPTIONS

The modular design of Data Center Lifters allow you to create the perfect tool for your specific needs. Easily add, remove, or customize individual components. These options include, but are not limited to:

### LOW-FRICTION PLATFORM

With the low-friction surface, loading and positioning heavy components is effortless. The horizontal slide provides easy side loading from a rack.

### REMOTE CONTROL PENDANT

The handheld pendant allows the user to work at proper viewpoint for precise height adjustment. Select from a static speed button or proportionate slider.

### ACCESSORY ADD-ONS

Travel as one unit with the ability to attach accessories, such as a step ladder, onto the mast.
