

SERVER RACK Lifter

Reduce the risk of an injury associated with lifting and positioning heavy server equipment.

Our Mission

PHS West is a relationship focused organization providing innovative products for a safe and efficient workplace.

At PHS West, we take pride in developing products that work towards eliminating the possibility of staff injuries. More than anything, we strive to help you achieve a safer and more productive workplace.

Don DeMorett
PRESIDENT

Server Rack Lifter

Implementing a Server Rack Lifter is the safe and efficient solution to performing essential data center maintenance tasks. Lift, position and transport heavy server equipment throughout your facility while eliminating the injury risk to your team. Allow any one staff member to install or remove servers from a rack with ease.

BENEFITS

Server Rack Lifters are lightweight and mobile for effortless positioning in narrow spaces. Bolster safety and productivity when performing server maintenance by removing the need for manual lifting.

Server Rack Lifter

FEATURES

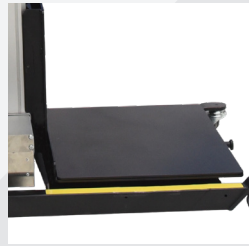

These standard features set our Server Rack Lifters apart from all others.

FEATURES

Lightweight Construction

Apply minimal force to transport without compromising durability.

FEATURES

Lowest Platform Height

The platform lowers to under 4" ensuring reach of the entire rack.

FEATURES

Detachable Power Pack

Our hot-swappable batteries accommodate any duty cycle.

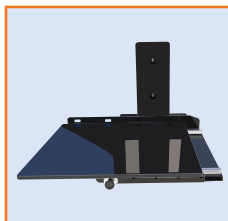

FEATURES

Central Brake System

Set the brake, directional lock, or free wheel at the press of a foot.

ADDITIONAL FEATURES AND CUSTOMIZATION OPTIONS

The modular design of Server Rack Lifters allow you to create the perfect tool for your specific needs. Easily add, remove, or customize individual components. These options include, but are not limited to:

LOW-FRICTION PLATFORM

With the low-friction surface, loading and positioning heavy components is effortless. The horizontal slide provides easy side loading from a rack.

REMOTE CONTROL PENDANT

The handheld pendant allows the user to work at proper viewpoint for precise height adjustment. Select from a static speed button or proportionate slider.

ACCESSORY ADD-ONS

Travel as one unit with the ability to attach accessories, such as a step ladder, onto the mast.
